EXPERIENCE

STAR EVENT MANAGEMENT- EVENT MANAGER April 2024 - April 2025

During my time at Teal Flamingo, I discovered that my organizational skills and planning capabilities are fulfilling to me. So I decided to follow that passion by accepting a full-time position as an event planner and I haven't regretted it since. Although my background is in mass communication, I believe that it gives me beneficial outlooks in the event planning processes specially when it comes to documenting, promoting, and visualizing how media coverage would be. I currently oversee all event related aspects for the popular cafe CAF and its participation in events as well as stand along initiatives and workshops that I plan including a large scale event for the winter season called "Biker's Week"

TEAL FLAMINGO STUDIO

Oct 2023 – April 2024

A full fledged media production company focusing on many aspects including esports, video production, and live event productions. At Teal Flamingo Studios I assist in producing video projects from coordinating with video team pre production needs such as talent hiring and set design. I also oversee production on set and post production process to assure timely delivery.

During live events hosted by Teal Flamingo, I MC events in both Arabic and English. Past events include press conferences, esports games, and music events
